Analyze A/B Test Results

REVIEW

HISTORY

Meets Specifications

Hey student.

Awesome work with the project. 🦊

Good coding skills! Awesome conclusions. 💪

Congrats in one more step towards your graduation! 🎉

Hey student.

In this submission you did everything right. =]

If you want to ask questions and help with them you can use the knowledge session. One of our mentors will answer them ASAP. and there you have a direct communication with them since you can comment and answer the replies.

=]

Hope I could help.

Code Quality

All code cells can be run without error.

Docstrings, comments, and variable names enable readability of the code.

Statistical Analyses

All results from different analyses are correctly interpreted.

For all numeric values, you should provide the correct results of the analysis.

Conclusions should include not only statistical reasoning, but also practical reasoning for the situation.
